SKILLS

Interests	Competitive Programming(CodeForces , CodeChef), DevOps
Programming Skills	C and C++, JavaScript, Express.js, React.js, Next.js, SQL, Python, FastAPI, Postgres DB, Firebase, Django, Java, Go
AWS Skills	EC2, RDS, CodePipeline using Github, EBS, S3, Route53
CSE Core Subjects Skills	OOPs, Databases, Computer Networks, Data Structures and Algorithms

EXPERIENCE

Software Engineer (September 2023 - present)

NVIDIA / AppPerfect Corp., Udaipur

- Worked on Next.js application to implement Open Telemetry and a major bug fix in functional tests to improve code coverage to 85%.
- Developed admin dashboards with caching in Python Dash Enterprise and improved core User Analytics functionality, creating reusable Dash templates that reduced report development time by 30
- Worked on databricks datalake to implement bronze, silver and gold tables to reduce report load times and improve higher order data aggregations.
- **Tech Stack:** React.js, Next.js, Node.js, Python Dash, Databricks, Python, JS.

Software Developer (June 2023 - August 2023)

MetaBlock Technologies, Jaipur

- Led a team of 5 developers to create projects in MERN Stack.
- Implemented REST APIs for various projects in 2 months. Eg: Auth- Phone/Email OTP, FileUpload using S3. Crypto Payment Integration, deployment on AWS Elastic Beanstalk, and Domain Management.
- Used transactions and locks in a project to avoid write-write problems for a schema. Increased company revenue by 20% with my programming and team leadership skills.
- **Tech Stack:** React.js, Next.js, Material UI, Next.js, MongoDB.

Front End Intern (Feb 2023 - September 2023)

[Certificate Link](#)

Newton School, Bangalore

- Collaborated with the front-end team to deliver high-quality solutions on the company's platform ensuring 100% KPIs over the complete duration.
- Utilized Next.js, React.js, JavaScript, HTML, and CSS to develop engaging and interactive questions.
- Employed Cypress to conduct comprehensive testing of React applications.
- **Tech Stack:** React.js, Next.js, Cypress.

Student Coordinator and Tutor (May 2021 - April 2023)

[Certificate Link](#)

Science and Technology Club, SKIT, Jaipur

- Led and expanded the Science and Technology Club at SKIT from 50 to 600+ members, tutoring over 400 students in foundational programming and OOP concepts over two years

EDUCATION

2020 - 2024	Bachelor's Degree (Hons.) at Swami Keshvanand Institute of Technology	(GPA: 8.9/10.0)
2018 - 2020	Class 12th CBSE at JayShree Periwal High School, Jaipur	(72.86%)
2017 - 2018	Class 10th CBSE at St. Paul's Sr. Sec. School, Banswara	(88.60%)

PERSONAL AND FREELANCING PROJECTS

NEET/PG Preparation App (TypeScript, Django, ReactNative, Expo)

[cortexacademy.in](#)

The Cortex Academy

- A Secure backend with Google and Apple sign-ins using token-based authentication in Django.
- Quiz functionality with time control, live feedback and scores for optimal preparation.
- Caching on Frontend and Backend for lowest response times and fast loading.
- Progress analytics to track user metrics like first/latest attempts and daily performance.
- Designed targeted revision sections ("Pearls") and implemented light/dark themes for user accessibility.

PartyPal - Benefic Solutions, Jaipur

- Scalable backend with 147+ endpoints and a robust database of 61 schemas, powering a dynamic social media and club/vendor booking platform, as part of a 2-person team.
- Multi-factor authentication (Phone/Email, Google Auth via Firebase), push notifications, and integrations with Spotify and Instagram, enhancing user engagement and seamless experience.
- Integrated payment processing, role-based access control, a personalized user recommendation system, and ticket/pass management, supporting secure transactions and personalized interactions for thousands of users.

Online Code Assessment Platform (Next.js, Prisma, Fastify, Docker, PostgreSQL, TypeScript) [Github Link](#)

- Robust Admin Panel to schedule exams, rich online text editor to create questions and test cases.
- Zero client dependency for code execution, test case judgement and grading. Scalable Code Judge using Judge0.
- Multi Language Support and Local sync to prevent loss of test data on refresh or connection failure. Supported instant feedback on custom test cases, making testing efficient and accessible.
- Implemented version control for tests, enabling teachers to track and manage changes.

Backend for Social Media App (FastApi, Python, PostgreSQL) [Github Link](#)

- Utilized PostgreSQL, JWT authentication, and SQLAlchemy for secure data handling and user access.
- Enabled post creation, editing, and likes with robust error handling and data validation.
